

WeeUsables Pricing Guide

as of June 1, 2026

Use the info below as a reference while pricing items for the upcoming WeeUsables event. Please note, these are suggestions based on our selling history and many factors can affect your individual sales.

Pricing tips:

1. Don't let emotion and memories affect your item pricing. Instead...
2. Start at **30%** of the retail price, then adjust based on the brand, condition, demand etc.
3. Ask a friend, what they would pay, since they don't have the same emotional connection to your items.
4. Remember, shoppers are looking for a deal!
5. New with tag items should be priced higher than new without tags or gently-used.

INFANT CLOTHING			
ITEM	BASIC	MEDIUM	HIGH
